RENEWED PETITION UNDER 37 CFR 1.47(a)

Sir:

This is in response to the Decision on Petition Under 37 CFR 1.47(a) dated 30 September 2003.

By said Decision, the PCT Legal Office stated that items (1), (2) and (3) of 37 CFR 1.47(a) were satisfied, but that item (4) thereof was not satisfied. Item (4) was deemed not satisfied because "it must be demonstrated that a bone fide attempt was made to present a copy of the application papers to the nonsigning inventor at his last known address.

Attached hereto is a Declaration of Sol Sheinbein in which Mr. Sheinbein states that he personally sent, on October 17, 2000 by certified, registered mail, return receipt requested, mail using the facilities of the Israeli Postal Authority, the above identified application and Declaration for execution by Yuly Galperin to his last known address: 1 Froog Street, Apartment 8, 58292 Holon, Israel.

Mr. Sheinbein declares that he is fluent in both Hebrew and English and that the contents of the envelope read as follows:

To: Mr. Yuli Galperin
1/8 Froog Street
Holon 58292

The envelope is stamped with Registered stamps placed by the Israeli Postal Authority in Israel, and the address is crossed out by the Postman with the term "Unknown". This is how undelivered mail is returned to the sender.

Mr. Sheinbein further states that the address listed above is the one provided the courts for service of court papers in the matter of Mr. Galperin's legal matters. No further addresses for Mr. Galperin were provided the courts, and queries to persons who knew Mr. Galperin did not uncover a different address.

Mr. Sheinbein further declares that in early November 2000, the above envelope was returned unopened with an indication thereon, in Hebrew that the addressee is "Unknown". Mr. Sheinbein further states that personal attempts of his to locate Mr. Galperin through the Israeli telephone "Information" service were also unsuccessful.

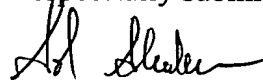

The valuable proprietary rights of the assignee A.T.C.T. Advanced Thermal Chips Technologies Ltd. in the subject matter of the above-identified application can only be preserved in the issuance of a patent to the assignee to prevent irreparable damage.

Please send the Decision on Petition to the undersigned at:

G. E. Ehrlich (1995) Ltd.

**SUPPORTING DECLARATION TO ACCEPT THE FILING WITH A
MISSING SIGNATURE OF INVENTOR UNDER 37 CFR 1.47(a)**

I, Sol Sheinbein, of 1 Oppenheimer Street, Tel Aviv, Israel, declare as follows:

I am the agent of record of the above identified patent application.

On October 17, 2000, I personally delivered, in a sealed envelope, to a local Israel Postal authority Branch, a copy of the above-identified application, along with a Declaration for execution by Yuly Galperin, a co-inventor on the above identified application. I mailed it certified, registered, return receipt requested, to the last known address of Mr. Galperin, 1 Froog Street, Apartment 8, 58292 Holon, Israel.

In early November 2000, the above identified envelope was delivered back to my office unopened, with a notation in Hebrew that the addressee was "Unknown". A copy of the envelope is attached herewith.

I am fluent in both Hebrew and English and state that the front of the envelope reads as follows:

To: Mr. Yuli Galperin
1/8 Froog Street
Holon 58292

The envelope is stamped with Registered stamps placed by the Israeli Postal Authority in Israel, and the address is crossed out by the Postman with the term "Unknown". This is how undelivered mail is returned to the sender.

The undersigned further states that the address listed above is the one provided the courts for service of court papers in the matter of his legal matters. No further addresses for Mr. Galperin were provided the courts, and queries to persons who knew Mr. Galperin did not uncover a different address.

I then personally attempted to locate Mr. Galperin through the Israeli Information telephone service. The operator advised me that there was no listing for Mr. Yuli Galperin.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the patent application or any patent issued thereon.

Respectfully submitted,

Sol Sheinbein
